

D/DRC Case

1714 Enoree Avenue

Wales Garden Architectural Conservation District

TMS: 11306-07-12

DESIGN/DEVELOPMENT REVIEW COMMISSION
BAILEY BILL APPLICATION
CONSENT AGENDA
EVALUATION SHEET
Case #1

ADDRESS: 1714 Enoree Avenue

APPLICANTS: David Schmitt, owner

TAX MAP REFERENCE: TMS# 11306-07-12

USE OF PROPERTY: Residential

NATURE OF REQUEST: Request approval for preliminary certification for Bailey Bill

FINDINGS/COMMENTS:

This building is a modest, single family Craftsman-influenced vernacular home built in the early 1920s on a small lot in the Wales Garden Architectural Conservation District. The home features a front-facing gabled roof with wood shakes in the gable, exposed rafter tails, wood siding, and a stoop which serves as the front entry. While a good bit of the house is intact, the left side has suffered some unsympathetic alterations which the owners may address in the future.

The house requires a good bit of repair work, including repairing termite damaged wood, repairing original windows, upgrading electrical and plumbing systems, replacing the roof, etc. The owners would like to replace the front door as well; staff will need to review this to ensure the front door is not original. Otherwise, all work meets the requirements of the Bailey Bill:

Sec. 17-698. Eligible rehabilitation.

(a) *Standards for rehabilitation work.* To be eligible for the special tax assessment, historic rehabilitations must be appropriate for the historic building and the historic district in which it is located. This is achieved through adherence to the following standards:

(1) The historic character of a property shall be retained and preserved; the removal of historic materials or alterations of features and spaces that characterize each property shall be avoided.
The scope of work indicates that historic materials will not be removed; staff will review front door for any historic significance.

(2) Each property shall be recognized as a physical record of its time, place and use; changes that create a false sense of historical development shall not be undertaken.
Not applicable.

(3) Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
Not applicable.

(4) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property should be preserved.

The owners are not changing the house in such a way that significant craftsmanship will be lost.

(5) Deteriorated historic features shall be repaired rather than replaced; where the severity of deterioration requires replacement of a distinctive feature, the new should match the old in design, color, texture, and other visual qualities and, where possible, materials; replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

Windows will be repaired where possible; if any new windows are required, then they shall match the originals in materials, design, etc.

(6) Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used; the surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

Not applicable.

(7) New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property; the new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the historic property and its environment.

Not applicable.

(8) New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

None of the work being done will impact the basic form and integrity of the building.

Staff recommendations:

Staff recommends granting preliminary certification for the Bailey Bill for the project at 1714 Enoree Avenue, based upon its compliance with Section 17-698 of the Code, and conditional upon it meeting the 20% investment threshold. The following conditions also apply:

- *Staff to work with applicants on windows and front door as required*
- *Any other details deferred to staff*
