

We Are Columbia

# Effective September 15, 2016

In-office debit/credit card payments  
will include a convenience fee.

To continue to provide our customers the ability to make in-office payments with a debit or credit card, the City of Columbia has partnered with Value Payment Systems (VPS), a third party service provider, to bring you a new payment service. The convenience fee collected is in no way associated with the City and is collected solely by VPS.

If you do not wish to use this service, you may pay the City of Columbia directly by other traditional methods such as cash or check.
