ALTERNATIVE FUEL ROADSHOW (10 a.m. to 1 p.m.)

Join the Palmetto State Clean Fuels Coalition outside for an alternative fuel vehicle display! These vehicles all run on some type of alternative fuel, making them great for the environment, but also great for your bottom line!

Imagine having a work vehicle that had low emissions, reduced maintenance costs and saved you money at the pump. Whether you drive 200 miles a day or a limited route in a city or town, alternative fuel vehicles can help your company become more competitive.

Looking for a personal vehicle? Look no further! Come out and see this great display of vehicles! We have Tesla, Zero Motorcycles, electric ATVs and even a Nissan Leaf!
