

**We Are Columbia**

**Together we will build a world-class city**

To continue to provide our customers the ability to make electronic payments the City of Columbia has partnered with South Carolina Interactive (SC.GOV), a third party service provider, to bring you these expanded methods of payments.

The total price charged to you, for your payment, includes funds used to develop, maintain, enhance, and expand the electronic payment service they are offering.

If you do not wish to use their services, you may pay the City of Columbia directly by other traditional methods such as cash or check.
